## HOW TO MAKE YOUR OWN CONSTELLATION?

# AQUICKGUIDE

If you have any questions, feel free to contact us at: office@teonite.com
You are welcome to visit us at: https://TEONITE.com or find us on GitHub: https://github.com/teonite

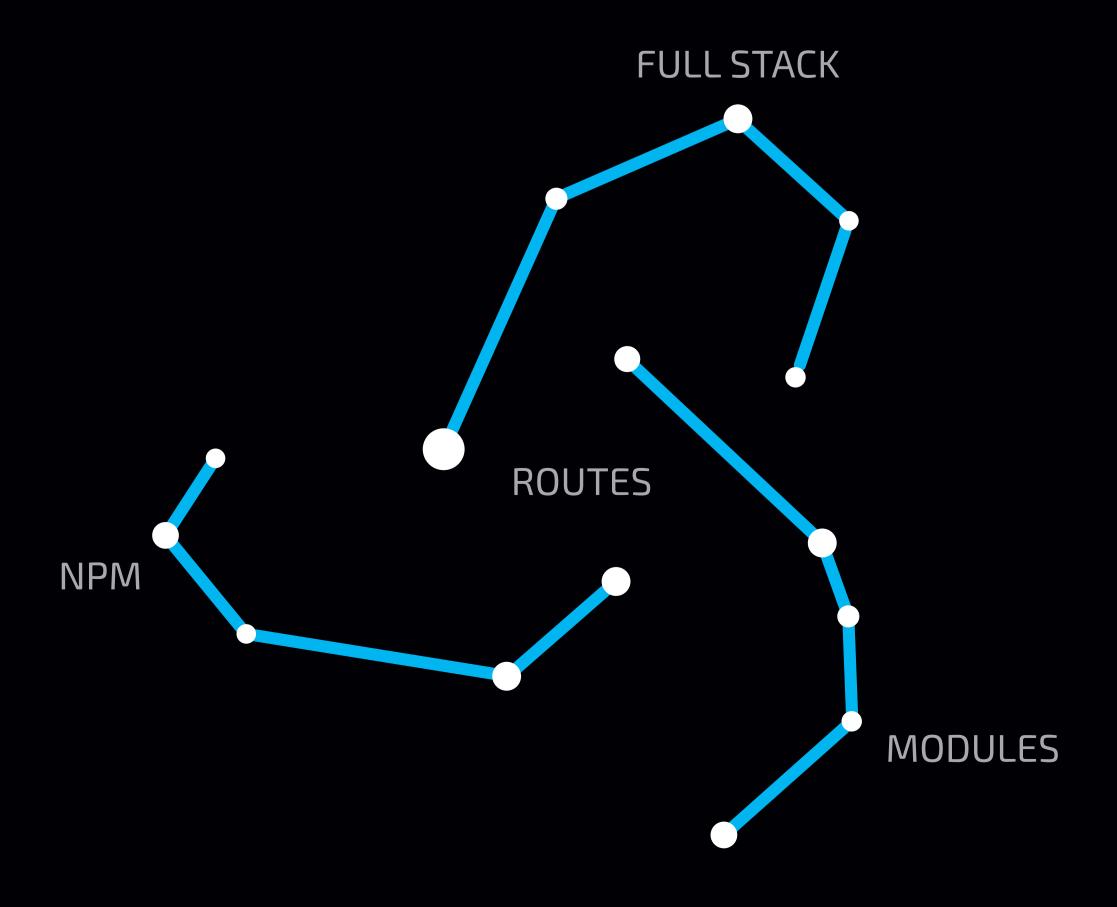

#### 1) PICK A LOGO

Pick a logo you want to use as a base for your new constellation.

#### 4) ADD STAR NAMES

When the base of your constellation is ready, add star names for flavor. Be creative!

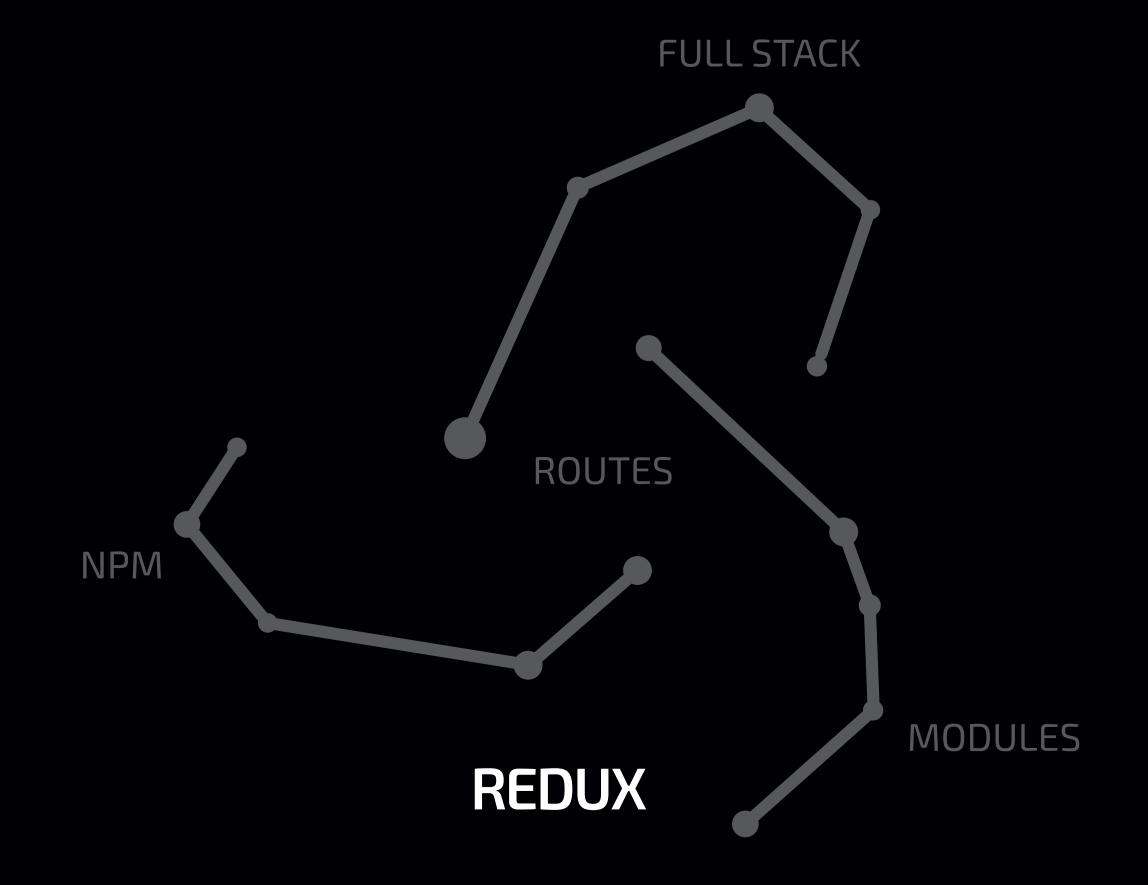

#### 2) POSITION CONSTELLATION STARS

Dots represent stars. Use different sizes and put them on angles and curves.

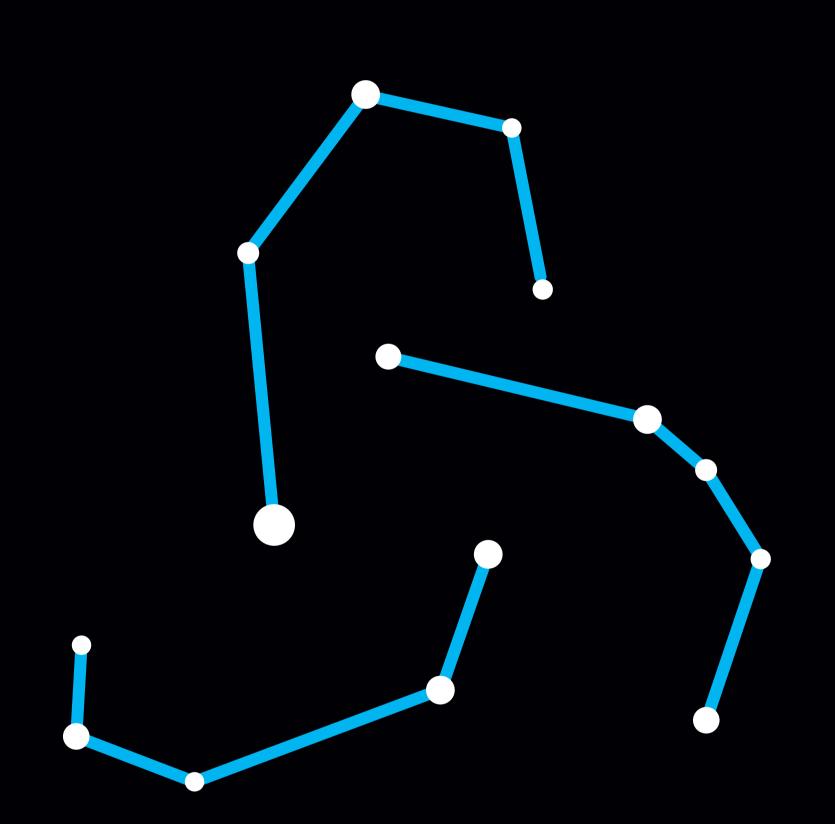

### 5) ADD CONSTALLATION NAME

As a final touch, add your constellation name. Make it a little bigger so that it stands out.

### 3) ADD CONSTELLATION LINES

Connect your stars with lines of the same thickness until the desired effect is achieved.

### 6) GO CRAZY!

Make multiple versions and try different techniques.

If you create something you wish to share - let us know!
